

Thermo Scientific PL6500
Lab Refrigerators and Freezers

reliable cold storage
for general-purpose applications
for general-purpose applications

your samples

To the rest of the world these are samples but we know that they are your life's work. Your lab's mission. Your company's breakthrough. Sample integrity is our singular obsession. Our lab refrigerators and freezers are engineered to protect temperature-sensitive samples in general-purpose applications. Our equipment, your samples – working together.

our obsession

Configurative and adjustable shelving in lab refrigerators; continuous shelving on double-door models (no obstructions)

Digital temperature controller with intuitive interface

Standard 25mm access port on all models

Door locks and additional space for padlocks on all models

+4°C Lab Refrigerators

- Temperature range of +1°C to +12°C (factory pre-set at +4°C)
- Digital temperature control
- Reliable temperature uniformity and air stability performance
- Interior fan for forced-air circulation (two fans on double-door model)
- Automatic defrost
- Lockable, dual-pane glass doors
- Keyed ON/OFF switch
- Interior lighting
- Standard 25mm access port
- Adjustable shelves

Lab refrigerators PLR221, PLR386, PLR1006; Lab freezer PLF276

Introducing

the Thermo Scientific PL6500 Series

Our new PL6500 lab refrigerators and freezers are suited for routine laboratory applications in non-regulated environments. All models feature advanced alarm options to meet the demanding requirements of the laboratory environment.

- Advanced air stability: $\pm 3^{\circ}\text{C}$
- Digital temperature controller with intuitive interface
- High and low visual temperature and audio alarms
- High-density, fluorine free insulation
- Heavy-duty construction
- Standard casters

-40°C Lab Freezers

- Settable temperature range of -20°C to -40°C (factory pre-set at -40°C)
- Reliable temperature uniformity and air stability performance (tightest uniformity at -40°C set point)
- Digital temperature control
- Manual defrost
- Lockable, high-quality steel door
- Standard 25mm access port

Digital temperature controller with intuitive interface

Maximize Sample Protection

Our lab freezer contains six inner storage compartments. Store frequently accessed samples in the top flip-door compartments while long-term samples remain undisturbed in the bottom drawers.

Specifications and Ordering Information

Description	Lab Refrigerator	Lab Refrigerator	Lab Refrigerator	Lab Freezer
Model No.	PLR221	PLR386	PLR1006	PLF276
Capacity (Liters)	221	386	1006	276
Electrical	220V, 50Hz	220V, 50Hz	220V, 50Hz	220V, 50Hz
Shelves/Drawers	3 shelves	5 shelves	12 shelves	4 drawers, 2 flip-top compartments
